

# Building a Community of Welcome:

## A Workshop to Discover the Genius of Today's Generations

Four of our six living generations actively shape the quality of our communities and workplaces:

- **Traditonalists** (born 1925-1942)
- **Baby Boomers** (born 1943-1960)
- **Generation X** (born 1961-1981)
- **Millennials** (born 1982-2003)

*When generations come together it's easy to focus on how we're different rather than being open to the genius of the others' worldviews.*

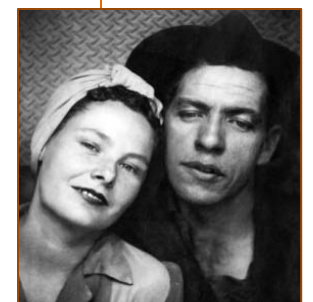

***How can we bridge the communication challenges and misunderstandings that get in the way of healthy, vibrant relationships?***

**Come join us** for this highly interactive, fun, one-day workshop providing a framework, practical tools, and skillful conversations needed to harness the synergistic power of the generations.

### You will learn:

- How shared generational experiences shape and inform us.
- The unique perspectives, strengths and challenges of each generation.
- Causes of inter-generational conflicts and how to avoid them.
- Practical techniques for non-toxic and effective communication.
- How to create empathetic understanding between the generations.
- Ways to call forth leadership from each generation in your organization or family.
- How to maximize the effectiveness of the multi-generational workplace, community, family.
